

Teachers Teaching Teachers

Professional Development Series

Master teachers from southwestern Pennsylvania will present their best ideas and demonstrate proven methods that are effective in the classroom.

- Learn practical, usable ideas that you can implement the next day
- Earn up to 22 Act 48 credit hours

Teachers Teaching Teachers (TTT) is an exciting new professional development opportunity for elementary, middle and high school teachers who teach in southwestern Pennsylvania. TTT was created from the fundamental idea that, within our region, there is a wealth of outstanding teachers who use best practices, methods and strategies. TTT offers these master teachers a venue to share their ideas and expertise with fellow teachers. TTT is the beginning of a series of conferences and events that will provide regional teachers with an opportunity to network with and learn from their peers.
